Phillip Rothschilds,

Pacific City.

THIS TOWN is situated upon the North West Quarter of Section No. nineteen (19), flownship No. fourteen (14), Range No. twenty (20), East of the sixth (6) principal meridian, being 10 miles due South of Lawrence. The Santa Fe Road passes through the town, over which from three to five thousand wagons pass every summer, averaging some two and one half tons of goods cach. The site is an exceedingly beautiful one, being surrounded by a fine country, principally improved. The proprietor affers a lot free of charge to any one who will build a house upon the same. We are much in need of Mechanics, especially Blacksmiths, Carpenters, Stone Masons, Wagon makers. Also stores, and especially Saw and Grist Mills. We have an abundance of timber, but as yet no Saw Mills in our immediate vicinity. Building stone is abundant, and from all indications Stone Coal will prove to be abundant also. All the requisites of the law in relation to the location of towns have been complied with, and the settler need have no fears as to the genuineness of his title. Shares are for saic upon reasonable terms. Thus seeking locations for business, or investment, are respectfully invited to pay us a visit.

Potatoes, are by far the most profitable crop, farmers can raise here, as can be seen by the following figures. Last year I planted 25 bushels of potatoes early in June, for which I paid \$75.00. We raised 250 bushels, which was onty nbout haif a crop. The expense of cultivalion, and of getting to market, was \$50. Total \$125.00. Present value of the crop \$875.00, or \$750 profit, from 4 acres of ground. Now suppose I had planted corn, instead of potatoes. The seed for 4 acres would have cost. Expense of cultivation, say \$50. F would have obtained not over 200 bushels of corn from the 4 acres. This would now be worth \$400, which c. M. FERRELL, E. L. BERTHOUD, Shawnee House.
